

Used Komatsu Excavators

Export Catalogue 2026 - PC-Series

98 models handled - from 3-tonne minis to 120-tonne mining machines.

Every machine is held or sourced in Hefei, China and quoted with its own photos, working video, hours, condition notes and FOB price. One price per unit - not "contact for price".

Trading since 2014 - 46,000 m2 yard

Prices shown are indicative FOB China and move with the exact unit. Brand and model names are used only to identify the original equipment.

The Komatsu PC range at a glance

The number in a Komatsu model name is a class indicator, not a weight. The table shows the classes we handle, the number of models in each, and the indicative FOB band.

Working class	Models	Indicative FOB band	Typical use
mini under 6t	12	\$12,000 - \$17,000	Tight sites, utilities, landscaping
compact 6-9t	7	\$12,000 - \$20,000	Urban works, drainage, trenching
10-20t class	14	\$20,000 - \$245,000	General construction and earthmoving
20-30t class	23	\$20,000 - \$28,000	Heavy civil works and quarry support
30-40t class	15	\$38,000 - \$69,000	Bulk earthmoving, quarry and road
40-50t class	19	\$60,000 - \$200,000	Mining and heavy mass excavation
100t+ mining	8	\$230,000 - \$270,000	Large-scale mining and mass haul

Used Komatsu mini under 6t excavators

Indicative FOB per model. The exact price follows one machine's year, hours, undercarriage, engine and hydraulic condition.

Model	Working class	Indicative FOB	Availability

PC608	2022	1000	Grade A	on request
PC608	2019	6600	Grade A	\$42,000

How to order

1. Send the Komatsu model, the job and your destination country or port.
2. We confirm the machine in stock and send its own FOB price with photos and a working video.
3. Inspect it: extra photos and video, a live call, or your own third-party inspector in China.
4. We load the machine and issue the documents: invoice, packing list, bill of lading and certificate of origin.
